

# HALO effect

## HAMMER THE GEAR\*

I wake up in the morning  
Thinking about a way to live  
I turn on the TV  
I can't stand what I see

Unconcern is the best game  
All people like to play  
I don't know what I can do  
All seems so useless

*Rit.*

It never goes away from here  
Let's hammer the gear  
It never goes away from here  
You don't have to fear

When I return in the evening  
After a working day  
I turn on the TV again  
I see things get worse and worse

Who has the power to improve the world  
Take care of business  
Greediness fills up the belly  
Caring about nothing else
